#### Gov. Hunt asks for halt of paroles for violent crime offenders.

Gov. Guy Hunt asked the state Board of Pardons and Parole Friday to stop granting paroles to violent criminals, and said he will call a special session of the legislature t change the law if necessary. Gov. Hunt's quick action was in

response to reports of two murders believed to have been committe this week by two separate Alabama prison parolees. Here is Gov. Hunts full state

"If I had my way, every criminal convicted of rape, murder and other violent crimes would be slammed behind bars forever, with no chance of ever getting out.

"I have asked the Parole Board to stop granting any more paroles to criminals convicted of violent crimes until I personally review the rules for granting these paroles. "If necessary, I will demand the Legislature to adopt new laws to keep these violent criminals from

getting out of prison and attacking innocent citizens. "And if necessary, I will call a special session of the Legislature to enact laws to keep these vicious criminals off the streets."

I took a couple of days off last week, the first days I've had off since the March 17 flood, and while my folks did enjoy a short stay in Florida, I think I was more tired when I got home than I was when I left. I obvious picked the worst time to visit Florida, because the attractions were packed, gasoline prices jumped 15 cents in just three days, the motel rates were high and the phone bill will be even higher. You see, we left the eighteen-month old with her Grandma and of course my wife had to call home at least once a day to make sure everything was okay.

Oh well, that will wrap up my time off for quite a while and by the time vacation time rolls around again I'll have forgotten all about the last one and be ready and raring to go again!

#### ELBA RANKED 1ST IN PRESEASON GRID POLL

The Alabama Sportswriters Association released its preseason high school football rankings last week and atop the list in the 3A ranks were the

defending champion Elba Tigers.

Elba was one of three defending champs picked to repeat, and that will quality players and be ready every night out when their opponents get fired up to try and knock off the defending champs. Elba has always been ranked high in the preseason poll and was picked to win the whole thing a couple of years ago, only to fall short. Maybe this time the Tigers will rise to the challenge and prove to the state that they are without a doubt the top team

I was a little surprised that Pike County wasn't picked atop the 4A poll.

After all, all the Bulldogs have done is win two straight state titles and football poll for the upcoming 1990 friends up in Brundidge insist that there will be no drop off, despite the loss of Steven Coleman. I bet the Dogs will come out barking!

Looking across the complete polls, it was also a little strange to notice that former 6A power Enterprise failed to even get a vote in the big school classification. The listing included the class's "Top 10" and all others receiving votes and no where to be found was Enterprise. Boy have times 13-2 record, received 10 of a possi- 6. Cherokee County

#### LOOK AT CLASSIFICATION SYSTEM INTERESTING

I published the populations of the state's high schools this week in an attempt to show the size of the various schools in the six classifications and I season rankings in each class:

think the populations present some interesting reading.

For years we have heard the locals say that Elba should play Enterprise. CLASS 6A It may be a good game; however, while Elba has a student population of 1. Murphy, of Mobile 259.5 in the top three grades, its neighbor to the East boasts a population of 1,253, making it the 9th largest school in the entire state. That's right, Enter-3. Lee, of Montgomery prise has almost 1,000 more students than Elba, which could make the 4. Jess Lanier, of Bessemer

Wildcats a "slight" favorite, based on available talent alone! An Elba-New Brockton matchup has also been the subject of conversa- 6. Vigor, of Prichard tion for years, well, at least since Leavy Boutwell made the Gamecocks a 7. Shades Valley 2A powerhouse. A look at the chart finds that Elba has 88 more students in 8. Gardendale the top three grades than New Brockton, or about 30 students per grade. A 9, Central, of Tuscaloosa rather large size difference, but nothing like the Elba-Enterprise difference.

The classifications are based on population and are divided as equally as possible, with an equal number of schools in each class. That works well in CLASS 5A some classes, like 3A, where only 65 students separates the largest from the 1. Fayette County smallest. However, up in 6A the equality stops abruptly! Jeff Davis and Robert E. Lee both have over 2,000 students in just three grades, while Albertville has a student population of only 664.8.

It may not work in all cases, but the system seems to be working in Ala

#### NO DOUBT, AHSAA IS A BIG MONEY OPERATION

The Alabama High School Athletic Association released its financial statement for the past year recently and while the bottom line showed a net income of \$110,123.81, a look across the ledger revealed that the organiza tion handled almost \$2 million over the year and enjoyed another banner

The AHSAA cleared over \$163,000 from Area, Sub-State and State Bas ketball Tournaments and made a cool \$222,295.16 from the football

Before anyone starts pointing a finger about the football playoffs being just a fund-raiser for the state, a check of the expenses revealed that the AHSAA passed out over \$703,000 to the schools participating in the for Thursday playoffs. Not a bad paycheck!

Other money makers for the AHSAA included softball playoffs, girl's Other money makers for the AHSAA included softball playoffs, girl's basketball, girls volleyball, wrestling, baseball playoffs and swim meets. Many people have always accused the AHSAA of being a big money maker, but when an organization handles almost \$2 million and has a net income of just over \$100,000, I'd say it is serving the state's members ex-

SouthTrust Maximum Advantage™ Checking ties your money to prime.

Without tying it up. Guaranteed.

Checking with interest indexed to prime-and more advantages.

You're guaranteed prime service without an annual fee. With SouthTrust Maximum Advantage Checking, you'll earn interest at rates indexed to the New York prime rate published in The Wall Street Journal. Minimum opening

deposit is \$2,000. Higher balances earn higher rates. Balances of \$25,000 or more earn 70% of prime. Balances of \$10,000 to \$24,999 earn 65% of prime. Balances of \$2,000 to \$9,999 earn 60% of prime. Even balances below \$2,000 earn at our current market rate.

Keep your balance at least \$2,000 and you get no-charge checking. There's not even a monthly fee except a service charge only in months when your balance falls below the \$2,000 minimum. You may write as many Member FDIC

checks as you want. And you get checks at no charge for both your Maximum Advantage Checking and for a SouthTrust Regular Checking account.

Watch For Lichens And Nematodes Dan J. Presley-Agent Coordinator

PAGE 12

Do you have a grayish-green leathery look growth on some of your plants? If you have something that look like this, you have lichens. Lichens are a non parasitic growth. It is a super indication that the plant it is growing on is in trouble. The plant may need fertilizer, it may need water, it may be in too much shade, it could be a nematode problem, it could be in a real drafty spot or it may be a combination of all these. The lichens themselves are not damaging the plant. They are only growing on the plant because it is in poor condition. You will see very few lichens on a healthy growing plant. If you can get your plant in good healthy growing condition, you
